

## Setting up SACR – User Defaults

Setting up user defaults in MyMav is easy and saves you time as you have to do is Set Up SACR.

In the Main menu, go to Set Up SACR, then User Defaults.

[Main Menu >](#)

 **Set Up SACR**  
Define installation options, security, and product-related set up tables.

 **User Defaults**  
Define user defaults.

Below are settings that I found helpful working the Graduate Nursing. In User Defaults 1 you can add Subject, Term and Program if you like.

User Default 2 I have UTARL under Business Unit and Institution Set. User Default 3 I do not have anything listed.

In User Defaults 4 you can add MAP for the new GMAP and UMAP and UNOFF for unofficial transcript

New Window

User Defaults 1 | User Defaults 2 | User Defaults 3 | **User Defaults 4** | Enrollment Override Defaults ▶

User ID: ██████████ ██████████

☒ Carry ID

Output Destination: Page ▼

Transcript Type: MAP 🔍 Maverick Academic Progress
