

# COLLEGE OF ARCHITECTURE, PLANNING, AND PUBLIC AFFAIRS

The College of Architecture, Planning, and Public Affairs (CAPPA) stands at the forefront of innovation, education, and community impact. In 2025, CAPPA reaffirms its commitment to **delivering a transformative, interdisciplinary education**—now further distinguished by STEM-designed programs that prepare students to shape the built environment and public realm with creativity, integrity, and purpose.

Our **distinguished faculty and dedicated staff foster a vibrant academic culture** that encourages critical inquiry, design excellence, civic engagement, and forward-thinking leadership. Through a curriculum that blends theory, practice, and advanced technology and is grounded in the traditions of architecture, planning, and public service, students are empowered to explore complex challenges. CAPPA's STEM-accredited programs reflect our **dedication to equipping graduates with the analytical, technical, and innovative skills** they'll need to meet the evolving demands of our global society.
